Yong Wang Appointed General Manager of API's Shanghai Subsidiary

MEMPHIS, Tenn., October 6, 2008 - Aerospace Products International, Inc. (API), a wholly-owned subsidiary of First Aviation Services, Inc. and a leading supplier of innovative distribution and supply chain services for the aviation industry, announces the appointment of Yong Wang as the General Manager of its subsidiary in China, API Shanghai. Yong brings with him over fifteen (15) years of experience in the aviation industry in China, where he held progressively responsible engineering and managerial positions in the maintenance, repair and overhaul (MRO), logistics services and parts distribution market segments.

Prior to joining API, Yong held the position of General Manager of Eltra Services, Beijing, which is Airbus' one-stop service center providing repairs and parts distribution services. He also served as the Marketing and Technical Director of the Airplane Technology Group which specializes in PMA parts, aviation materials and supplies and supplementary type certification services.

Yong began his career in the aviation Industry in 1993 at the Aircraft Maintenance & Engineering Corporation (AMECO) in Beijing as a planning engineer in the Production and Planning control, Component Repair and Aircraft Overhaul Departments. In 2000 he was appointed as the Avionics Repair Station Manager at the Airbus/CASA Customer Service -Support center.

Yong earned his bachelor degree in Electronics from Shenyang Institute of Aeronautical Engineering and his MBA from University of International Business and Economics (UIBE).

About Aerospace Products International

API offers worldwide customer service 24 hours per day, 7 days per week, 365 days per year (+1.888.API.24X7 or +1.888.274.2497) through strategically located distribution centers and partnerships in the USA, Canada, China, Philippines and Europe.

Aerospace Products International, Inc., headquartered in Memphis, Tenn., is the leading provider of innovative distribution and supply chain services for the aviation industry. API distributes aircraft parts and related products and components to manufacturers, maintenance providers, and operators of some of the most widely used commercial, corporate and general aviation aircraft. In addition to its product supply services, API offers the aviation industry extensive supply chain management and third-party logistics services and solutions, including forecasting and procurement services, inventory management, rotables management, and product sales. API also offers overhaul and repair services for brakes and starters/generators, and builds custom hose assemblies. Its parent company, First Aviation Services Inc., is a worldwide leader in providing services to the aviation industry. More information is available at <http://www.apeworldwide.com>.
